

WHY CHOOSE TRIFLEX ANNUITY PLATINUM?

- You set aside tax-preferred savings today, in order to guarantee a lifetime stream of income after you retire
- You insure that if you should die before you begin receiving your income stream, your family/estate will receive a return of your contributions or the fund value (whichever is greater)
- You enjoy the benefits of triple compound interest accumulation, that is, interest on your contributions, interest on the interest, and interest on the tax savings amounts
- You have the choice of taking 25% of your accumulation at retirement, to liquidate outstanding loans, pay for your children's education, fund your health care costs, start a business, provide you with interest income, or go on a dream vacation
- To defer taxation on 'benefits in kind' paid to you as a key employee or owner in a corporation subject to BIR contribution limits
